

## OUR PROMISE

- Each care plan will be unique, and specially tailored to fit patient needs
- We will provide a clear explanation of each part of the care plan
- Physicians, nurses, therapists and aides will work closely together, and adjust care plans as necessary
- We will place the emotional and physical well-being of the patient as our first priority

## WHO IS ELIGIBLE FOR HOMECARE?

Patients may be eligible if:

- There is a medical need, and physician approval has been obtained for Homecare services
- There is a need for nursing care and/or physical, occupational, or speech therapy
- The patient is homebound due to an illness

## OUR MISSION STATEMENT

The Mission of Abode Home Health is to treat all those that we come in contact with (patients, caregivers, fellow employees, referral sources, vendors, and payors) the way we would want to be treated.

**ABODE**  
Home Health™

Patient services are provided without regard to race, color, religion, age, gender, sexual orientation, disability (mental or physical), communicable disease, or place of national origin.

At Abode Home Health, we understand that each patient has unique needs. We also understand there is no “one-size-fits-all” solution when it comes to healthcare. Homecare is a great option for those who need extra assistance, but do not need to be in a hospital or other care facility. Our services can help patients avoid unnecessary hospitalizations, speed up recovery time, and allow them to stay in their own homes where they can feel safe and secure.

## BENEFITS OF HOMECARE

The homecare option allows patients to recover from an illness in the comfort of their own home. The patient can remain independent, continue their daily routine, and recover with a low level of stress. We want patients and loved ones to be confident in the care they receive, so before we begin caring for someone in their home, we evaluate the home to ensure there are no hazards.

## OUR SERVICES

We offer many different services that can be included in a patient care plan when needed. We believe in nurturing all aspects of a person by addressing their physical and emotional needs. We offer the following:

### Personal Care

With Personal Care, certified home health aides can assist with dressing, bathing, walking, and eating.

### Therapies

When appropriate, patient care plans can include therapy. Licensed therapists are available for physical, occupational, and speech therapy.

*Sometimes asking for help is the most meaningful example of self-reliance.*

### Skilled Nursing

Upon arriving at your home, our seasoned Nursing staff will conduct a comprehensive assessment of your health status and the information will be discussed with your physician to determine your individualized goals and create an appropriate plan of care. The many types of assistance we provide include:

- Nursing education regarding disease management
- Cardiovascular care
- Respiratory care
- Dietary education

- One-on-one education concerning medication
- Pain management
- Wound, ostomy and catheter care
- Diabetic care management and teaching
- Promote self-care with the highest level of independence
- Assistance with equipment management
- IV and enteral therapy
- Fall Risk Management

*Nursing services are provided by Registered Nurses (RNs).*

*“Beautiful young people are accidents of nature, but beautiful old people are works of art.”  
— Eleanor Roosevelt*
